

WERO-US-EW750

Commercial Reverse Osmosis System

WERO-US Commercial series of Reverse Osmosis Systems are suitable for pharmaceutical production, laboratories, hospitals and where pure water is required. Each system comes complete with filters, membranes, booster pump, flush valve, faucet and pressure tank.

Model:	WERO-US-EW750
Type:	Reverse Osmosis (Water Purifier)
Installation:	Powder Coated Mild steel frame
Classification:	Water Purifier
Certification:	CE
Capacity:	750L/day
Membrane type:	Vontron - 3012-200
Pre Filter:	2.5 x 20 STD Housing x 3
Booster Pump:	24v 200GPD
Power:	50/60 HZ
Voltage:	240v AC to 24v transformer
Flush type:	Auto-Flush Controlled by microcomputer
Fitting type:	JACO or Quick fitting
Pressure tank:	20L steel tank

Accessories also Available

•Replacement cartridges

- **Carbon**
- **Sediment**
- **Softener**
- **Re-mineral**

•Replacement membranes

- **3012-200, 3012-400**

•Replacement Pumps

•Replacement Transformers

Model:	WERO-US-EW150
Type:	Reverse Osmosis (Water Purifier)
Installation:	Powder Coated Mild steel frame
Classification:	Water Purifier
Certification:	CE
Capacity:	1500L/day
Membrane type:	Vontron - 3012-400
Pre Filter:	2.5 x 20 STD Housing x 3
Booster Pump:	24v 400GPD
Power:	50/60 HZ
Voltage:	240v AC to 24v transformer
Flush type:	Auto-Flush Controlled by microcomputer
Fitting type:	JACO or Quick fitting
Pressure tank:	20L steel tank
