

## **WERO** Mini RO

The dependable name in Australian made reverse osmosis equipment

At Waterequip we believe the best ROs are made right here down under in Australia. We take great pride in the fact that we are the only water equipment wholesaler who builds and supports its own equipment. We can customize a solution to your needs and have complete filtration packages available in stock.

The WERO Mini is a very versatile reverse osmosis system. The mini was designed to be an under bench RO that could be used in laboratories or the medical profession to provide a pure water solution and be discrete and quite when in operation. The mini comes in 1, 2 and 3 membrane options and can be customized to suit your application.

<b>WERO MINI</b>
